

THE 2017

COLLINGWOOD SUMMER INSTITUTE

the collingwood summer institute

provides students the opportunity to enrich, extend and deepen their learning — opening pathways for more advanced courses at Collingwood and more options for university.

Courses offered

Chemistry 11 Enriched
Physics 11 Enriched
Science 10 Enriched
Pre Calculus 12 Enriched
Pre Calculus 11 Enriched
Foundations of Mathematics & Pre-Calculus 10 Enriched
Math 9 Enriched

All courses follow the British Columbia course curriculum. Enriched courses — designed for students who have an interest in science, technology and mathematics — include activities designed to extend knowledge and learning to areas not normally covered in the standard British Columbia curriculum. All courses are Collingwood courses — the course and the mark achieved will go on the student transcript. Students may only take one course at the Summer Institute.

Dates & Class schedule

Monday, June 26 – Friday, July 28.

Monday–Wednesday	8:30 a.m. to 1:30 p.m.
Thursday	8:30 a.m. to 3:00 p.m. (lunch provided)
Friday	8:30 a.m. to 1:30 p.m.

Due to the compressed nature of the course, it is critical that students are able to attend all of the days – missing one day of this course is the same as missing four classes in the regular timetable, which is more than a week of classes. Students may not miss more than 2 days for any reason

Faculty

All courses are taught by Collingwood faculty specially chosen for their ability to enrich student learning within the Collingwood education approach.

“If you love to be challenged academically, enjoy working with other motivated students, want a taste of a university environment, and thrive in advanced courses in science and mathematics, the Collingwood Summer Institute is for you.”

Cost

\$1250 per course

Cafeteria

The school cafeteria will be open with a limited selection on the days the Institute offers classes.

Summer Institute Administrator

Mr. Stephen Garland

contact: stephen.garland@collingwood.org

Application & Registration

The Summer Institute registration & online payments are due Friday, April 7. Please visit www.collingwood.org/SummerInstitute starting on Thursday, March 2nd, 2017 to complete your registration.
